

Web Accessibility Audit Report

🌐 www.zgk-kurylowka.pl

📅 30.09.2025

🕒 WCAG 2.1 (WCAG2A, WCAG2AA)

🔗 Audited URL

<http://www.zgk-kurylowka.pl/>

 Executive Summary

Overview of accessibility compliance and key findings

Compliance Score

85%

87

Total Issues

1

Pages Audited

Issues by Severity

 Critical	0
 Medium	11
 Low	76

Standards Tested

WCAG2A	0 errors	3 warnings	31 notices
WCAG2AA	0 errors	8 warnings	45 notices

 **European Accessibility Act (EAA) Compliance**

Status: Compliant with warnings

Meets minimum EAA requirements but has 11 accessibility warnings

Standard: EN 301 549 (WCAG 2.1 Level AA) | **Effective:** 30.09.2025

 **Manual Accessibility Verification**

Status: Passed

Date: 30.09.2025 | **Tester:** Karolina Ploch

Tools Used: VoiceOver, NVDA, Narrator

Notes: Manual verification conducted with assistive technologies, covering WCAG 2.1 Level A and AA success criteria.

Detailed Findings

Complete list of accessibility issues found during the audit

If this element contains a navigation section, it is recommended that it be marked up as a list.

MEDIUM

WCAG A

This is a significant accessibility concern that may create barriers for some users. While not immediately blocking, it should be addressed to improve overall accessibility.

Guideline:

Guideline 1_3

Element:

html > body > header > ...

Page:

/

Heading markup should be used if this content is intended as a heading.

MEDIUM

WCAG A

This is a significant accessibility concern that may create barriers for some users. While not immediately blocking, it should be addressed to improve overall accessibility.

Guideline:

Guideline 1_3

Element:

#main > ul > li:nth-chi...

Page:

/

Accessible name for this element does not contain the visible label text. Check that for user interface components with labels that include text or images of text, the name contains the text that is presented visually.

MEDIUM

WCAG A

This is a significant accessibility concern that may create barriers for some users. While not immediately blocking, it should be addressed to improve overall accessibility.

Guideline:

Guideline 2_5

Element:

#main > ul > li:nth-chi...

Page:

/

This element's text is placed on a background image. Ensure the contrast ratio between the text and all covered parts of the image are at least 3:1.

MEDIUM

WCAG AA

Text with insufficient contrast against the background color is difficult to read for users with low vision or color blindness. This affects readability and accessibility.

Guideline:

Guideline 1_4

Element:

html > body > header > ...

Page:

/

If this element contains a navigation section, it is recommended that it be marked up as a list.

MEDIUM

WCAG AA

Form controls without proper labels are not accessible to assistive technologies. Users with screen readers cannot understand what information is required.

Guideline:
Guideline 1_3

Element:
`html > body > header > ...`

Page:
/

This element is absolutely positioned and the background color can not be determined. Ensure the contrast ratio between the text and all covered parts of the background are at least 4.5:1.

MEDIUM

WCAG AA

Text with insufficient contrast against the background color is difficult to read for users with low vision or color blindness. This affects readability and accessibility.

Guideline:
Guideline 1_4

Element:
`#main > ul > li:nth-chi...`

Page:
/

Heading markup should be used if this content is intended as a heading.

MEDIUM

WCAG AA

Form controls without proper labels are not accessible to assistive technologies. Users with screen readers cannot understand what information is required.

Guideline:
Guideline 1_3

Element:
`#main > ul > li:nth-chi...`

Page:
/

This element is absolutely positioned and the background color can not be determined. Ensure the contrast ratio between the text and all covered parts of the background are at least 4.5:1.

MEDIUM

WCAG AA

Text with insufficient contrast against the background color is difficult to read for users with low vision or color blindness. This affects readability and accessibility.

Guideline:
Guideline 1_4

Element:
`#main > ul > li:nth-chi...`

Page:
/

This element is absolutely positioned and the background color can not be determined. Ensure the contrast ratio between the text and all covered parts of the background are at least 4.5:1.

MEDIUM

WCAG AA

Text with insufficient contrast against the background color is difficult to read for users with low vision or color blindness. This affects readability and accessibility.

Guideline:
Guideline 1_4

Element:
`#main > ul > li:nth-chi...`

Page:
/

Accessible name for this element does not contain the visible label text. Check that for user interface components with labels that include text or images of text, the name contains the text that is presented visually.

MEDIUM

WCAG AA

This is a significant accessibility concern that may create barriers for some users. While not immediately blocking, it should be addressed to improve overall accessibility.

Guideline:

Guideline 2_5

Element:

#main > ul > li:nth-chi...

Page:

/

This element has "position: fixed". This may require scrolling in two dimensions, which is considered a failure of this Success Criterion.

MEDIUM

WCAG AA

This is a significant accessibility concern that may create barriers for some users. While not immediately blocking, it should be addressed to improve overall accessibility.

Guideline:

Guideline 1_4

Element:

#cookie-banner

Page:

/

Check that the title element describes the document.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > head > title

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > a

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Ensure that the img element's alt text serves the same purpose and presents the same information as the image.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

If this image cannot be fully described in a short text alternative, ensure a long text alternative is also available, such as in the body text or through a link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Ensure that the img element's alt text serves the same purpose and presents the same information as the image.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

If this image cannot be fully described in a short text alternative, ensure a long text alternative is also available, such as in the body text or through a link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that a change of context does not occur when this input field receives focus.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 3_2

Element:

#cookie-accept

Page:

/

Check that a change of context does not occur when this input field receives focus.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 3_2

Element:

#cookie-reject

Page:

/

Check that the content is ordered in a meaningful sequence when linearised, such as when style sheets are disabled.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_3

Element:

—

Page:

/

Where instructions are provided for understanding the content, do not rely on sensory characteristics alone (such as shape, size or location) to describe objects.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_3

Element:

—

Page:

/

Check that any information conveyed using colour alone is also available in text, or through other visual cues.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that if a keyboard shortcut is implemented in content using only letter (including upper- and lower-case letters), punctuation, number, or symbol characters, then at least one of the following is true: Turn off: A mechanism is available to turn the shortcut off; Remap: A mechanism is available to remap the shortcut to use one or more non-printable keyboard characters (e.g. Ctrl, Alt, etc); Active only on focus: The keyboard shortcut for a user interface component is only active when that component has focus.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_1

Element:

—

Page:

/

If any part of the content moves, scrolls or blinks for more than 5 seconds, or auto-updates, check that there is a mechanism available to pause, stop, or hide the content.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_2

Element:

—

Page:

/

Check that no component of the content flashes more than three times in any 1-second period, or that the size of any flashing area is sufficiently small.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_3

Element:

—

Page:

/

Ensure that any common navigation elements can be bypassed; for instance, by use of skip links, header elements, or ARIA landmark roles.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

—

Page:

/

Check that all functionality that uses multipoint or path-based gestures for operation can be operated with a single pointer without a path-based gesture, unless a multipoint or path-based gesture is essential.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:
Guideline 2_5

Element:

—

Page:

/

Check that for functionality that can be operated using a single pointer, at least one of the following is true: No Down-Event: The down-event of the pointer is not used to execute any part of the function; Abort or Undo: Completion of the function is on the up-event, and a mechanism is available to abort the function before completion or to undo the function after completion; Up Reversal: The up-event reverses any outcome of the preceding down-event; Essential: Completing the function on the down-event is essential.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_5

Element:

—

Page:

/

Check that for user interface components with labels that include text or images of text, the name contains the text that is presented visually.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_5

Element:

—

Page:

/

Check that functionality that can be operated by device motion or user motion can also be operated by user interface components and responding to the motion can be disabled to prevent accidental actuation, except when: Supported Interface: The motion is used to operate functionality through an accessibility supported interface; Essential: The motion is essential for the function and doing so would invalidate the activity.

LOW

WCAG A

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_5

Element:

—

Page:

/

Check that the title element describes the document.

LOW

WCAG AA

Page titles that are not descriptive or unique make it difficult for users to identify pages, especially when using multiple tabs or screen readers.

Guideline:

Guideline 2_4

Element:

html > head > title

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > a

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Ensure that the img element's alt text serves the same purpose and presents the same information as the image.

LOW

WCAG AA

Images without alternative text cannot be understood by screen readers and other assistive technologies. This makes the content inaccessible to users with visual impairments.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

If this image cannot be fully described in a short text alternative, ensure a long text alternative is also available, such as in the body text or through a link.

LOW

WCAG AA

Images without alternative text cannot be understood by screen readers and other assistive technologies. This makes the content inaccessible to users with visual impairments.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > header > ...

Page:

/

Ensure that the img element's alt text serves the same purpose and presents the same information as the image.

LOW

WCAG AA

Images without alternative text cannot be understood by screen readers and other assistive technologies. This makes the content inaccessible to users with visual impairments.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

If this image cannot be fully described in a short text alternative, ensure a long text alternative is also available, such as in the body text or through a link.

LOW

WCAG AA

Images without alternative text cannot be understood by screen readers and other assistive technologies. This makes the content inaccessible to users with visual impairments.

Guideline:

Guideline 1_1

Element:

html > body > header > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

#main > ul > li:nth-chi...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that the link text combined with programmatically determined link context identifies the purpose of the link.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

html > body > footer > ...

Page:

/

Check that a change of context does not occur when this input field receives focus.

LOW

WCAG AA

Unexpected changes in context (like opening new windows or changing focus) without user notification can disorient users, especially those using assistive technologies.

Guideline:

Guideline 3_2

Element:

#cookie-accept

Page:

/

Check that a change of context does not occur when this input field receives focus.

LOW

WCAG AA

Unexpected changes in context (like opening new windows or changing focus) without user notification can disorient users, especially those using assistive technologies.

Guideline:

Guideline 3_2

Element:

#cookie-reject

Page:

/

Check that the content is ordered in a meaningful sequence when linearised, such as when style sheets are disabled.

LOW

WCAG AA

Content that relies solely on visual presentation (like color, shape, or size) may not be accessible to users with visual impairments or those using assistive technologies.

Guideline:

Guideline 1_3

Element:

—

Page:

/

Where instructions are provided for understanding the content, do not rely on sensory characteristics alone (such as shape, size or location) to describe objects.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Element:

Page:

Guideline 1_3

—

/

Check that content does not restrict its view and operation to a single display orientation, such as portrait or landscape, unless a specific display orientation is essential.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Element:

Page:

Guideline 1_3

—

/

Check that any information conveyed using colour alone is also available in text, or through other visual cues.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Element:

Page:

Guideline 1_4

—

/

Check that text can be resized without assistive technology up to 200 percent without loss of content or functionality.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Element:

Page:

Guideline 1_4

—

/

If the technologies being used can achieve the visual presentation, check that text is used to convey information rather than images of text, except when the image of text is essential to the information being conveyed, or can be visually customised to the user's requirements.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that content can be presented without loss of information or functionality, and without requiring scrolling in two dimensions for: Vertical scrolling content at a width equivalent to 320 CSS pixels; Horizontal scrolling content at a height equivalent to 256 CSS pixels; Except for parts of the content which require two-dimensional layout for usage or meaning.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that the visual presentation of the following have a contrast ratio of at least 3:1 against adjacent color(s): User Interface Components: Visual information required to identify user interface components and states, except for inactive components or where the appearance of the component is determined by the user agent and not modified by the author; Graphical Objects: Parts of graphics required to understand the content, except when a particular presentation of graphics is essential to the information being conveyed.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that no loss of content or functionality occurs by setting all of the following and by changing no other style property: Line height (line spacing) to at least 1.5 times the font size; Spacing following paragraphs to at least 2 times the font size; Letter spacing (tracking) to at least 0.12 times the font size; Word spacing to at least 0.16 times the font size.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that where receiving and then removing pointer hover or keyboard focus triggers additional content to become visible and then hidden, the following are true: Dismissible: A mechanism is available to dismiss the additional content without moving pointer hover or keyboard focus, unless the additional content communicates an input error or does not obscure or replace other content; Hoverable: If pointer hover can trigger the additional content, then the pointer can be moved over the additional content without the additional content disappearing; Persistent: The additional content remains visible until the hover or focus trigger is removed, the user dismisses it, or its information is no longer valid.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 1_4

Element:

—

Page:

/

Check that if a keyboard shortcut is implemented in content using only letter (including upper- and lower-case letters), punctuation, number, or symbol characters, then at least one of the following is true: Turn off: A mechanism is available to turn the shortcut off; Remap: A mechanism is available to remap the shortcut to use one or more non-printable keyboard characters (e.g. Ctrl, Alt, etc); Active only on focus: The keyboard shortcut for a user interface component is only active when that component has focus.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_1

Element:

—

Page:

/

If any part of the content moves, scrolls or blinks for more than 5 seconds, or auto-updates, check that there is a mechanism available to pause, stop, or hide the content.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_2

Element:

—

Page:

/

Check that no component of the content flashes more than three times in any 1-second period, or that the size of any flashing area is sufficiently small.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_3

Element:

—

Page:

/

Ensure that any common navigation elements can be bypassed; for instance, by use of skip links, header elements, or ARIA landmark roles.

LOW

WCAG AA

Pages without proper headings or skip links make navigation difficult for users with screen readers. A clear heading structure helps users understand the page organization.

Guideline:

Guideline 2_4

Element:

—

Page:

/

If this Web page is not part of a linear process, check that there is more than one way of locating this Web page within a set of Web pages.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

—

Page:

/

Check that headings and labels describe topic or purpose.

LOW

WCAG AA

This is a minor accessibility consideration that could enhance the user experience for people with disabilities. Addressing it would improve the overall accessibility of the page.

Guideline:

Guideline 2_4

Element:

—

/

Check that there is at least one mode of operation where the keyboard focus indicator can be visually located on user interface controls.

LOW

WCAG AA

Interactive elements without visible focus indicators make it difficult for keyboard users to navigate the page. Focus should be clearly visible for all interactive elements.
